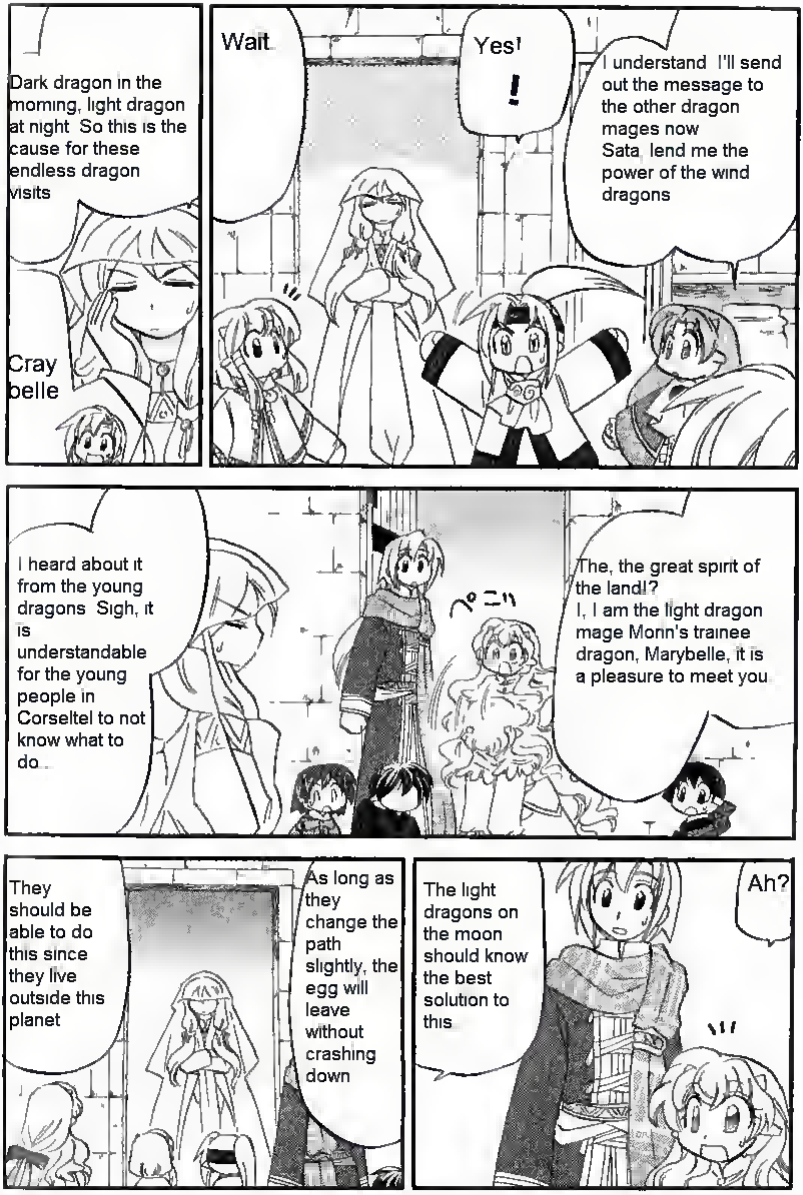
Coming from the far ends of the sky (part 2)

第5話
～從天空彼端而來【中篇】～

A dark dragon egg is flying over

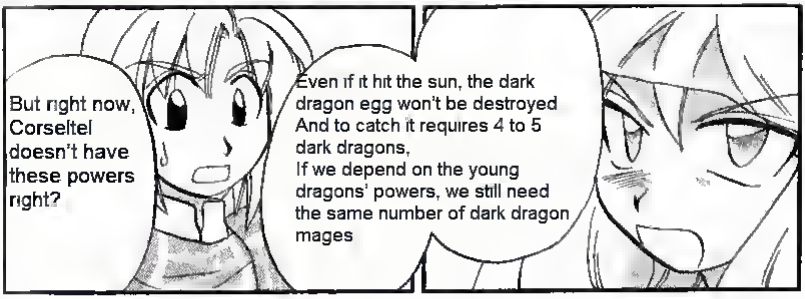
What kind of baby dragon will it be? This is the first time I see a dark dragon egg!
But she said a dragon egg? Just one person is coming?
What should we do? We haven't prepared anything for the celebrations!
Wow, this is amazing! We just heard that the dark dragon tribe is coming back, but this is too fast!
わあっ
This... the light dragon tribe and Morin don't know what to do,
Ah, yes! Maryelle ?
so we wanted gather the dragon mages and seek guidance from the great spirit of the land-
Isn't the egg going to crash into Corseltel!? Everyone and the egg are going to be in danger!
Now isn't the time to be happy!
ah!



Dark dragon in the morning, light dragon at night So this is the cause for these endless dragon visits
Cray belle
Wait
Yes!
!
I understand I'll send out the message to the other dragon mages now Sata lend me the power of the wind dragons
I heard about it from the young dragons Sigh, it is understandable for the young people in Corseltel to not know what to do
ペコ
The, the great spirit of the land!? I, I am the light dragon mage Monn's trainee dragon, Marybelle, it is a pleasure to meet you
They should be able to do this since they live outside this planet
As long as they change the path slightly, the egg will leave without crashing down
The light dragons on the moon should know the best solution to this
Ah?

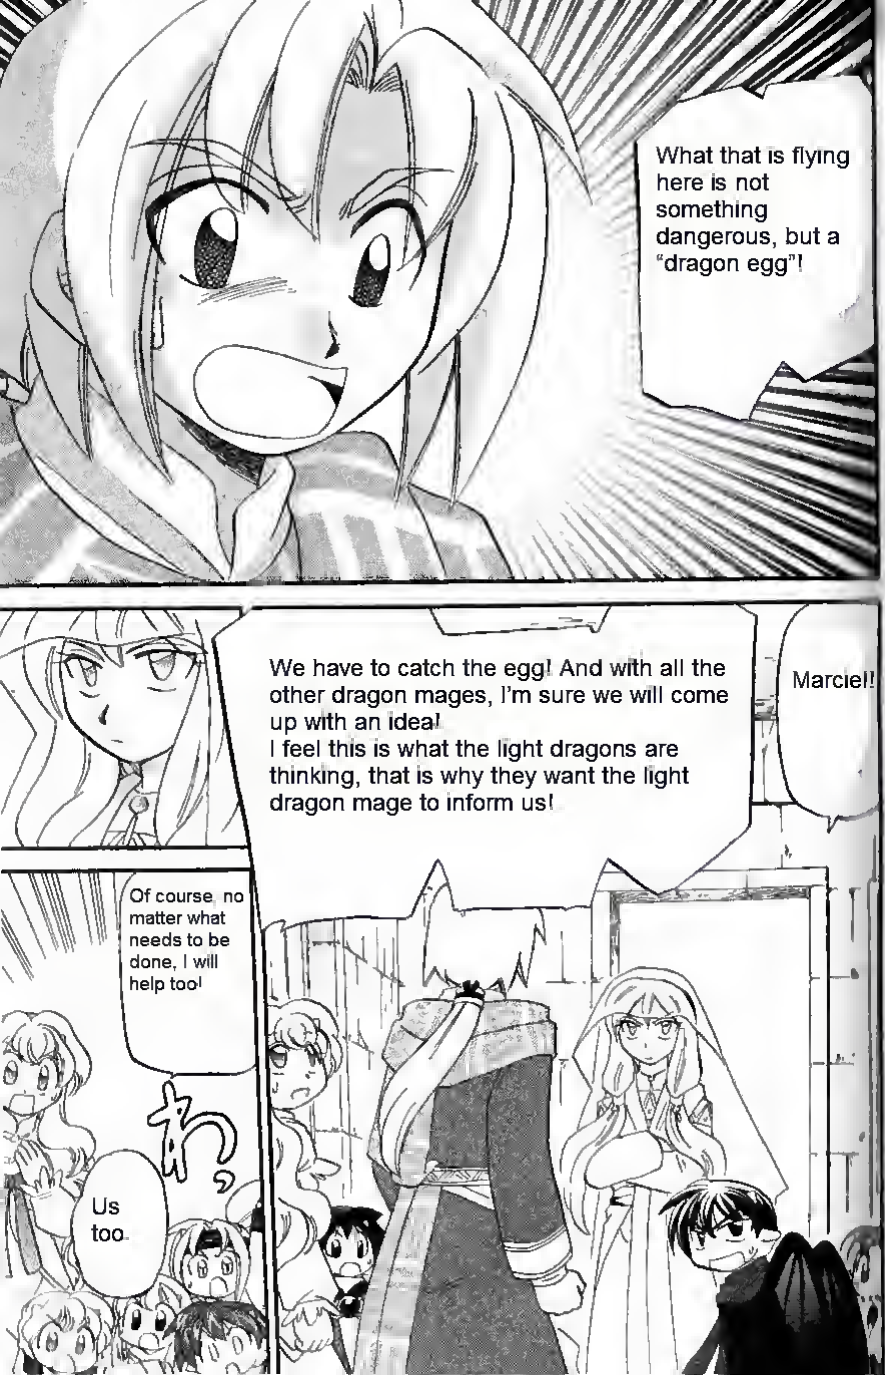
No way!
!!
Urgh……
Please don't make my young dragons cry.
Wait! wait
Why!! Crystal princess is too much!
Does that mean making the little dark dragon egg go somewhere else!?
嗚一哇

Listen well now! This is something flying in from the other end of the sky! If it hit us it will be a disaster! Even Corseltel might turn to dust!
Really! No matter what is the era all dragon mages are like this!

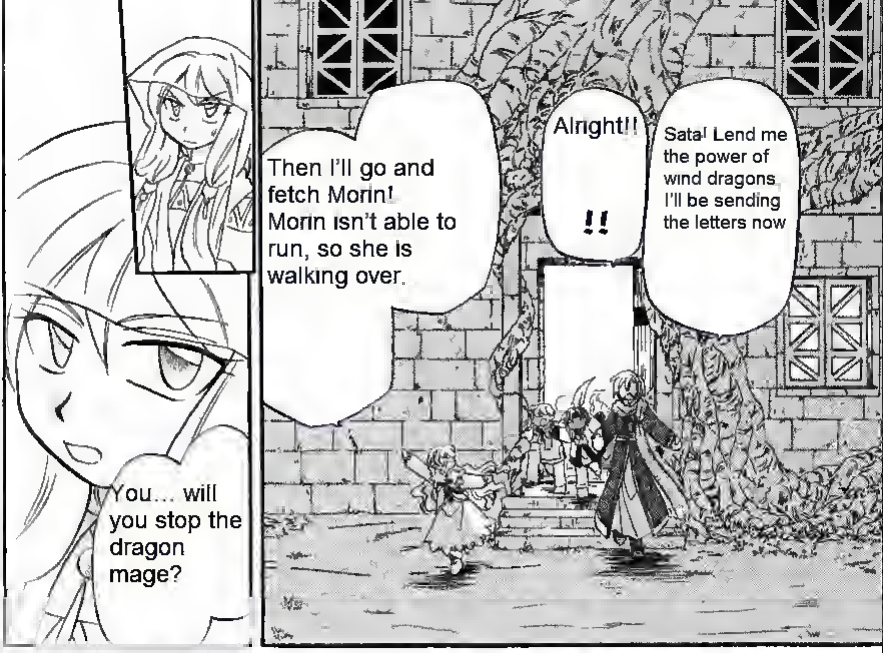


But right now, Corseltel doesn't have these powers right?
Even if it hit the sun, the dark dragon egg won't be destroyed And to catch it requires 4 to 5 dark dragons, If we depend on the young dragons' powers, we still need the same number of dark dragon mages

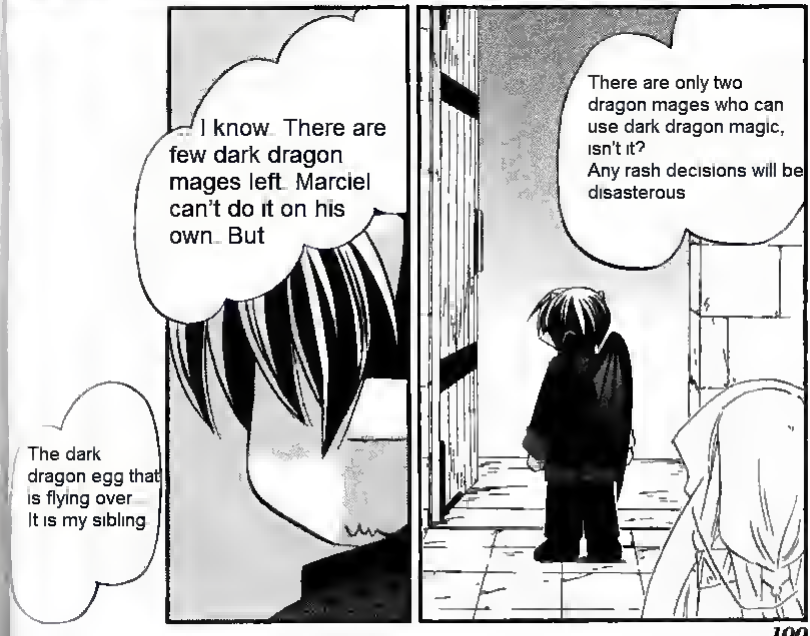
Ah!
Telling the dark dragon egg's parents its direction, and letting them pick it up, this might be the best option
Strictly speaking, the light dragon tribe live on the moon so they can protect this planet, keeping it safe from external attacks



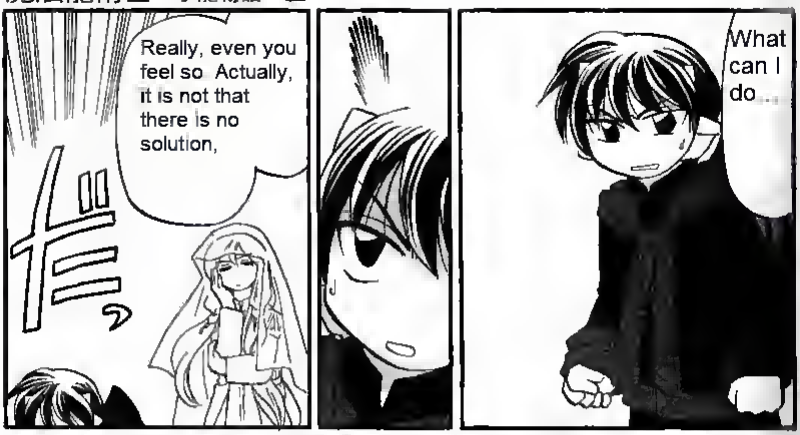
What that is flying here is not something dangerous, but a "dragon egg"!
We have to catch the egg! And with all the other dragon mages, I'm sure we will come up with an idea!
I feel this is what the light dragons are thinking, that is why they want the light dragon mage to inform us!
Marciel!
Of course, no matter what needs to be done, I will help too!
Us too.



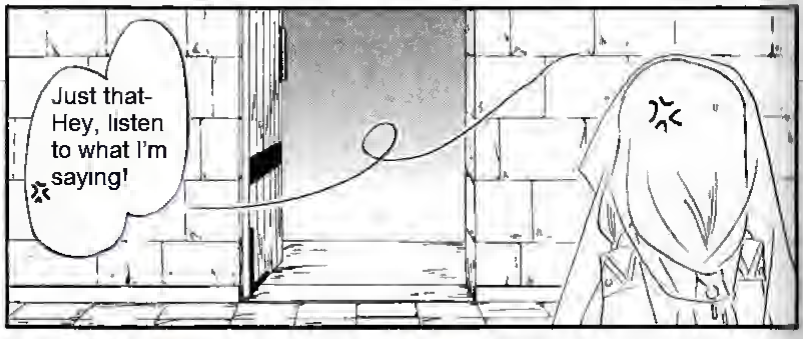
You... will you stop the dragon mage?
Then I'll go and fetch Morin! Morin isn't able to run, so she is walking over.
Alright!!
!!
Sata! Lend me the power of wind dragons. I'll be sending the letters now



I know. There are few dark dragon mages left. Marciel can't do it on his own. But
The dark dragon egg that is flying over It is my sibling
There are only two dragon mages who can use dark dragon magic, isn't it?
Any rash decisions will be disasterous



Really, even you feel so Actually, it is not that there is no solution,
What can I do...



Just that- Hey, listen to what I'm saying!

Dark dragon magic!? Is it the egg!!?
I can feel dark dragon magic
It is from the dark dragon mage's... Raruka's magic
Marcie!
!

Letter?
Did you receive the letter? I just sent it out.
Meria!
!
Good night, Marciel
What are you saying?
?
Could it be because of this!?
!?
've just heard it from Erize, and wanted to confirm it with you. You sent a message to the other end of the skies dunng the day.
I've just heard it from Erize, and wanted to confirm it with you. You sent a message to the other end of the skies during the day.
Raruka
ぽん

That's why they let the dragon egg return a bit sooner.
Marciel, the dragons must have been very happy to hear your words,
Although we wished for them to return soon, but this is too fast!
And it's just a dragon egg flying here all on its own, what can we do...
哇一
哦一
Their message is: [We have sent out a dragon egg. The dragon egg is at the end of its lifespan, but it was unable to hatch. We can only ask for the dragon mages' help.]
The message form the ends of the skies are from a dark dragon tribe which left even earlier, and went further,

Right now in Corseltel, there isn't any dragon mage who can hatch this egg, isn't it?
Wha...
Ah!?
哦—
!?

I was planning to reply, That we are unable to accept the egg.

Without a dark dragon mage the egg can only stay in the dark dragon mage's magic technique room and wait along.
If it is so it will be better for it to be with its companions so it won't be lonely-
Then it can come to our house!

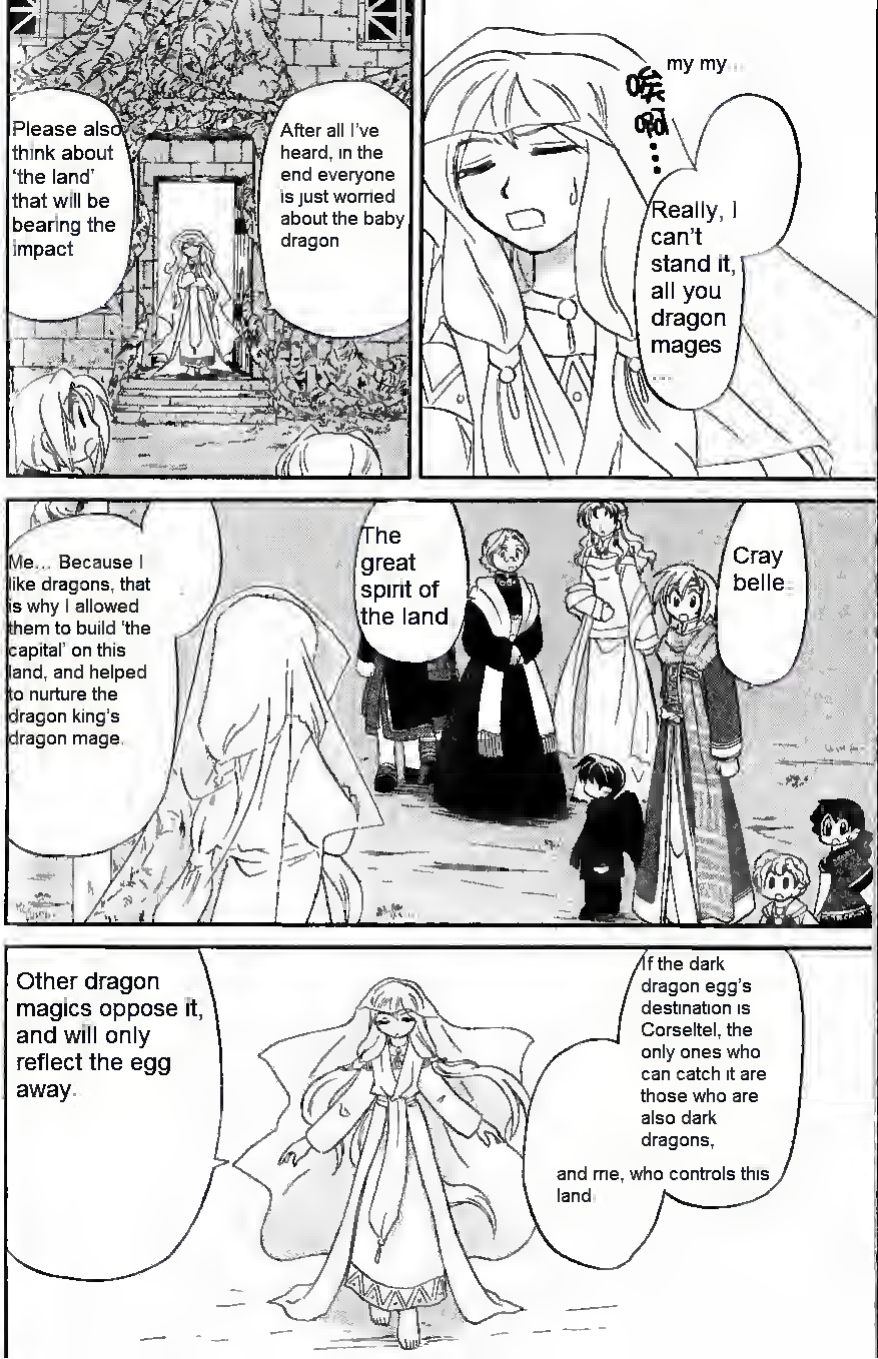
To keep on waiting, how long does it need to wait? A few years, a few hundred years...

Both you and me, we don't have the power to nurture any more young dragons.
Both you and me, we don't have the power to nurture any more young dragons.

That's right! It can just come to our house!!
And there are a lot of flowers
And in the magic room there is sister spirit, and it is bright and lively, it won't feel lonely at all!
There is a new magic technique room at our house!
Of course I am happy but...
What, Ata! You have been having so many opinions since just now! Aren't you happy at all!?
Which is why!! We must have a way to bring it back in the first place!!
Meet us
He will surely meet his dragon mage. And he will also

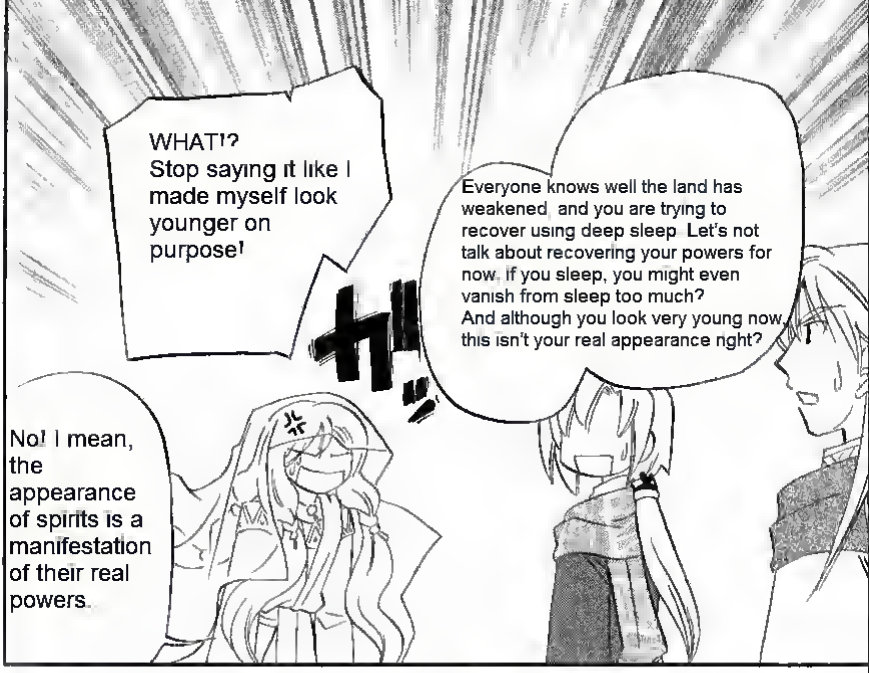
He will meet Mother Meria, and brother
And he will also meet Rorby.
And will meet siblings who quarrel
哇
The light dragons who are the only ones who can send the egg back wish that we can catch the egg,
Before dawn breaks we just have to catch it!
That's right!
The dragon egg will surely meet his own dragon mage...
So,

Then we will go and fetch Ifurofu.
Alright Even if Meo is with him, but it is now night, we can only hope they won't get lost
Hoho Actually, you are also-
Morin
Kadio
The situation seemed to have turned worse Have you thought of any ways to let the dragon egg land safely by dawn?
You're right
sigh
In Corseltel, there isn't any dragon mages who will turn away any baby dragons in need of help, is there?

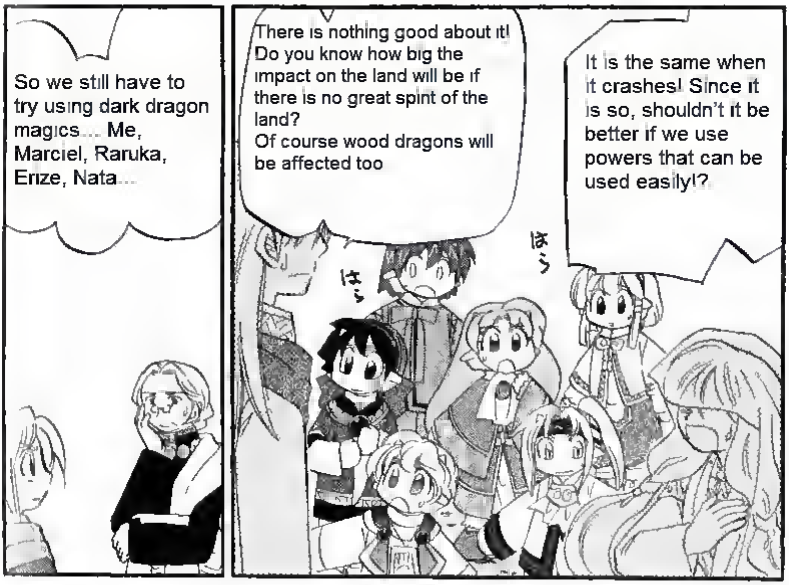


Please also think about 'the land' that will be bearing the impact
After all I've heard, in the end everyone is just worried about the baby dragon
my my...
Really, I can't stand it, all you dragon mages...
Me... Because I like dragons, that is why I allowed them to build 'the capital' on this land, and helped to nurture the dragon king's dragon mage.
The great spirit of the land
Cray belle
Other dragon magics oppose it, and will only reflect the egg away.
If the dark dragon egg's destination is Corseltel, the only ones who can catch it are those who are also dark dragons,
and me, who controls this land.

Cray belle
But, with just 3 young dark dragons, and 2 dragon mages' powers, it isn't enough to retneve the dragon egg Right now I don't have this power either
No! You will vanish
But never mind I will use my powers to lower the damage as much as possible So let me-
There is no way to catch the egg safely and not cause a disaster



WHAT!?
Stop saying it like I made myself look younger on purpose!
Everyone knows well the land has weakened, and you are trying to recover using deep sleep. Let's not talk about recovering your powers for now. If you sleep, you might even vanish from sleep too much?
And although you look very young now, this isn't your real appearance right?
No! I mean, the appearance of spirits is a manifestation of their real powers.



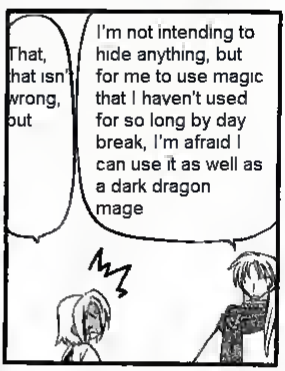
So we still have to try using dark dragon magics... Me, Marciel, Raruka, Erize, Nata...
There is nothing good about it! Do you know how big the impact on the land will be if there is no great spirit of the land?
Of course wood dragons will be affected too
It is the same when it crashes! Since it is so, shouldn't it be better if we use powers that can be used easily!?
はう
はう

We rushed here as quickly as we could but it seems like we are late, sorry. We're using dark dragon magic to catch the egg? Reach direction is it coming in from?
(ニ, ニ)
...
Elle
Don't you have the ability of dark dragon magic too, Kadlo. Stop hiding it, and bring out your abilities for all to see?
Of course! This is a huge matter to the dark dragons, how can I stay at home!
Rorby is here too...
If there is anything I can help with, I will try my best, Erize!
Erize!
...
Really! Teacher, be faster!!
Hey, wait, Rorby
Rorby

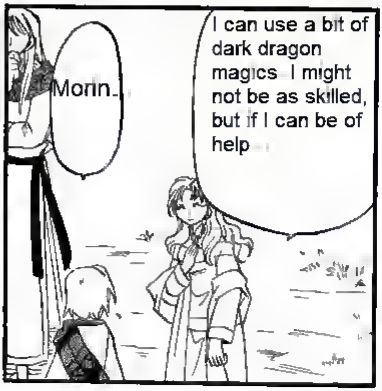
I don't have a choice The letter said to bring my trainee dragon over, and Rorby kept saying he wants to come and I can't stop him, And I can't leave the kids at home
The entire earth dragon house came? Rambalus

レュウウウ…
Ah! Everyone is here already

Magics abilities



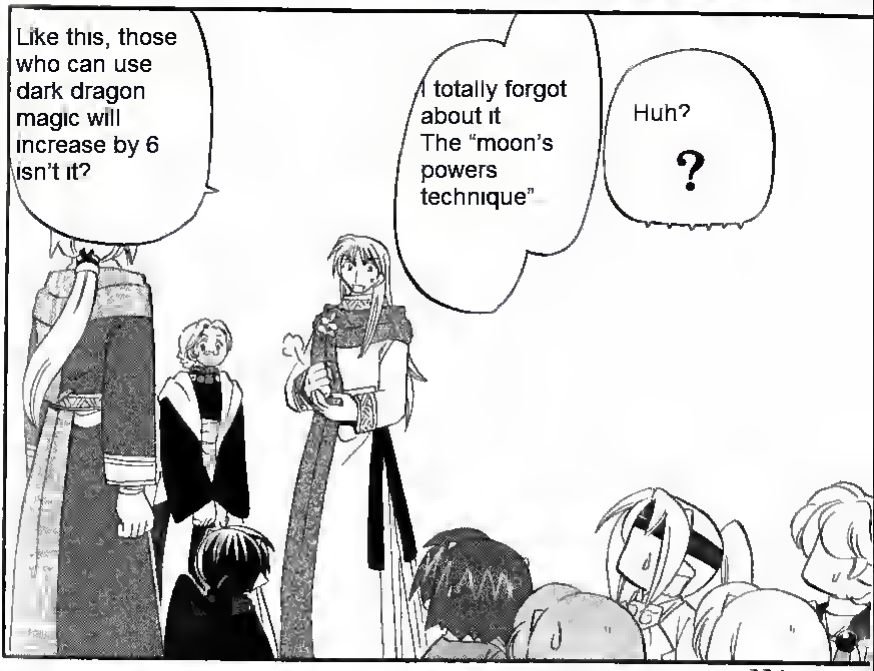
That, that isn't wrong, but
I'm not intending to hide anything, but for me to use magic that I haven't used for so long by day break, I'm afraid I can use it as well as a dark dragon mage



Morin
I can use a bit of dark dragon magics I might not be as skilled, but if I can be of help

I'm sorry, we cannot stay for long.
I am worried about Suu undergoing egg reversal. Although I asked Argina to look after her till day break, but...
Ifurofu.
Stop, stop laughing, Jen.
a 하
ha 하 하
ha 하 하
ha 하 하
ha
Just as I guessed they really ended up at the other side of the mountain!
すとん
!
But if we don't catch the dragon egg, it will...
Because he is going to do something rash again
Nata really wants to stop Marciel
Although I have never used the most powerful dark dragon magic before... But if I do so...
It will be fine! I will try my best!!

Marciel's trainee dragons!
But I wish we can do something, after all, all 7 of us are-
But I heard it needs dark dragon magic...
Hey, hey! Isn't there anything we can do to help!?



Like this, those who can use dark dragon magic will increase by 6 isn't it?
I totally forgot about it The "moon's powers technique"
Huh?
?

What nonsense are you sprouting! If non trained dragons are to help too, it will cause the power balance to collapse, and a very serious power rebounding!
If we teach them the technique, then there are enough people Just a little bit of power from each other we can use very powerful techniques
Ah ah!? But, but the young dragons are not trained at all!
With the moon's powers, even if it is dragons, they can also use the powers of other dragons, just like dragon mages
Then as long as all the dragon mages and their trainee dragon help, it should be alright
But it will be the toughest on the dark dragons,
We will do it!
To use such large scale magic, they might be exhausted and have to sleep up to 2 to 3 days.

I will do it! I'll try my best!
This is something we can do too!
This is great! It means everyone in Corseltel
Using the same moon powers as Marciel ... To catch the dragon egg with our own powers
This our greatest wish!
あっあ、
Will be able to welcome the little dark dragon egg together!
